TO: All Anthropologists Interested AIDS Research

 FROM: Douglas A. Feldman, Ph.D.
Acting Executive Director, ACQC

RE: AIDS and Anthropology Research Group

DATE: January 21, 1987

MEMORANDUM

At the AAA meetings last month in Philadelphia, I was asked to organize a research group which would unite all anthropologists interested in AIDS research. We discussed the need for an AIDS and Anthropology Research Group at a special panel on interest groups of the Society for Medical Anthropology, and we shall be holding an organizational meeting at the next AAA sessions in Chicago.

Enclosed is a tentative mailing list of all anthropologists interested in AIDS reserach. If you have a correction, wish to be deleted, or if you know of someone who should be added to the mailing list, please let me know. If you have any ideas of what else the Research Group might do at this time, before our organizational meeting next December, please send these ideas to me.

Dr. Linda A. Bennett, the American coordinator of the 12th ICAES meeting to be held in Zagreb, Yugoslavia during July, 1988, asked me if I would organize a session on "International AIDS Research and Anthropology." If you woul like to participate, or think you might, please send me yôur proposed title and a 75-200 word abstract as soon as possible.

Thank you.
